PENSIONS JUSTICE

On Wednesday November 30 2011, over 20 different Trade Unions, representing 3million workers, will be taking part in the single largest day of industrial action since the great General Strike of 1926. Those 3million workers, along with Students and Pensioners, are coming together to defend pensions, public servants, and the public services they provide. Join us on the March and Rally. Let's all send a message to the government that here on Merseyside, we will not let the attacks on our livelihoods go unchallenged.
